

Free furniture-care and maintenance tutorial

We are often asked advice on the best way to maintain furniture in the lobby. The most common issues concern cleaning upholstery and unstable fixings.

We will come to your store and carry out a hands-on tutorial with the staff where we will cover the following topics:

- Cleaning techniques for vinyl using McDonalds cleaning products to effectively clean and remove dirt from the grain without damaging the fabric
- Temporary repairs to vinyl using coloured tape
- How to recognise types of damage and gauge timescales of repair
- The difference between real leather and vinyl, how to clean and maintain chesterfield leather sofas
- How to easily construct and deconstruct bench seating for deep cleaning; NB tilting bench seats is the main cause of damage to legs and rubber bungs
- Regular checks on fixings, tightening and troubleshooting
- The procurement process for ordering new fixings, tools and organising furniture repairs and upholstery.
- We will recommend a bespoke kit for your specific furniture needs so that you are not using generic fixings or tools which are substandard to your specific scheme.

Our feedback for these tutorials has been very positive so far, managers have reported a positive impact for the lobby staff who are taking ownership of the furniture. In addition to maintenance it is also useful to help the procurement process for repairs and re-covers, planning in work to ensure maximum cost-efficiency.

If you would like to book a free tutorial then please email us on mcd@screstoration.co.uk Please indicate the best times that suit and how many staff you would like to attend. We would recommend the business manager attending as well as the lobby staff.

Best wishes,
Joey : 07944105757
